

Good Life & Good Taste

from Coconut Flower Drops

Virgin drops

from coconut flower
flow out gently amidst soft wind breeze
and sound of nature from birds, creatures
connecting us all together. The flower is
bended slowly each day to allow drops
of nectar to flow in a simple container.

The nutrient rich drops are in complete
of balance nutrients from sugars, minerals
and amino acids allowing small microbes
to grow and block the flow. The harvester
needs to slice across the flower to clean
and continue the drops, unlike other
coconut produces, the harvesters work
veryday to harvest the nectar until the
tree meet its rest period around 80 days
per year.

Chiwadi conducted 2 clinical studies to
confirm that our nectar products are
Low Glycemic Index,
and the vinegar results in
gaining muscular mass,
increase metabolism,
reduce carbohydrate intake,
promote quality sleep.

Thai wisdom
Over centuries

SECRET
for
Weight Control
Body Balance &
Wellness

Apart from rare coconut minerals that are very useful for health, types of
amino acids are mainly for boosting sweetness and umami taste driven
by glutamic acid, aspartic acid, cystine, glycine, alanine, threonine, proline and
serine. Therefore, the taste of Chiwadi products are favorable by nature.

**Created &
Crafted by**

- passion in Thai authentic taste
- trust in power of wholeness from nature
- Intention to bring good life to us all

Chiwadi Products Co.,Ltd.

1.Nectar

Coconut Nectar
Coconut Flower Sugar

Delay Hunger
Weight Control
Clean blood vessels

Low Glycemic Index, Clinically proven
by Mahidol University

1 table spoon as honey over bread
or to sweeten beverages

2.Vinegar

**Rich in
Antioxidants**
(Vitamin&Polyphenols)

Detox
Gain muscular mass
Increase metabolism
Reduce carb intake
Promote sleep

Coconut Flower Cider Vinegar

-Nectar
-Turmeric
-Ginger

Aminos: 1 teaspoon for
marinating, stir frying.

Coconut Aminos
Sweet Chili Sauce
Coconut Dipping Sauce
Coconut Seasoning sauce

1 table spoon with half a
cup of water for drink, or
1 table spoon for cooking

5.Veggie Wash

An organic blend of coconut
flower dewdrops, organic
acids, and sea salt is simple
natural magic that turns
chemically contaminated
fruits and vegetables for
safe consumption. Its
nature power helps
make leafy crispier and
prolongs shelf life in storage.

An outstanding research work by
Chiangmai University under
support from NSTDA, Thailand.

4.Sparkling Cider

New fizzy...from Coconut nectar and
Coconut cider.

Sparkling Coconut Cider Drink
Original
Lychee Flavor

35% Vitamin C
10 Amino acids

Boost stamina
10 Amino acids, 9 Minerals to build collagen
"Beauty that you can create from within"

No Sugar ADDED
Natural sweetness from Coconut Sugar.
Prolongs Hunger, Helps weight control
